SELIGA
AUCTUS

AUCTUS Headlamp coupled with AUCTUS Loupes.

Compact and portable AUCTUS light system features an ultra-lightweight headlamp with hi-power LED diode. The focused, strong light will significantly improve the comfort of your work.

AUCTUS LED light system is a perfect addition to AUCTUS Loupes but its universal clip mounting fits also most other loupe frames.

High light intensity of up to 40 klx provides better depth of field.

Headlight technical data	
weight	8 g
color temperature	6.000 – 7.000 K
light intensity	40,000 lx
LED lifespan	~50000 h

AUCTUS light-weighted entry-level loupes with modern design frames. Best choice for professionals looking for reliable solutions at a more than reasonable price.

Suitable for everyday work with magnification.

Indispensable wherever precision is the key to successful treatment, surgery or procedure.

In pursuit of the best solution, SELIGA AUCTUS is the option not to avoid. **Test it!**

Reliable clip to fasten battery to your belt or pocket.

Adjustable wrap tape immobilizes loupes on your head and reduces the load on your nose. It can also be used as a lanyard, when the loupes rest on your chest.

3-hinge adjustment system - right angle for every kind of medical treatment.

Flip-up solution – one move of your hand to uplift the loupes and work with your naked eyes.

2013 NEW feature. Rx lens holder for your prescription lenses.

Battery technical data	
type	Li-Poly
weight	150 g
cell lifespan	up to 2 years
recharge time	3 h
dimensions	
width	62mm
height	82mm
thickness	26mm
working time	
intensity level 3 (hi)	7 h
intensity level 2	10 h
intensity level 1 (low)	15 h
universal power supply	
Europe	230V
USA	110V
UK	230V
Australia	240V

Li-Poly rechargeable battery provides energy for up to 7 hours of continuous work with maximum light intensity.

Build-in visual indicator of current charge level. A recharge takes no more than 3 hours.

3-step light intensity adjustment - control the light to achieve optimal vision and to reduce the glare effect – the cause of eye fatigue and your eyesight resolution lowering.
